

# Master Plan of Parkway Trees 2000 for Windsor Square (City of Los Angeles)

(prepared jointly by the Windsor Square Association Tree Committee and the Bureau of Street Services Street Tree Division.)

The Master Plan of Parkway Trees has been, and is, based on the principle of variety in the neighborhood (to resist blight and disease) and continuity on the block (for beauty and personality). The factors used by the tree professional to determine the designated Master Plan tree species include, but are not limited to: parkway width, smog and drought resistance, soil conditions, continuity within the block, screening characteristics, historical designations, life expectancy, and beauty. This tree planting plan is designed to guide residents in the selection of new parkway trees; existing healthy trees should—of course—be allowed to live out their natural life span with care and respect.

Publication of this Plan is funded by a generous grant from the California Releaf 2000 Program and the California Department of Forestry and Fire Protection whose assistance is gratefully acknowledged.

## Designated Parkway Tree for each Block Face

<u>Location</u>	<u>Common Name</u>	<u>Botanical Name</u>	<u>City No.</u>
<b><u>Arden Boulevard</u></b>			
Between			
Beverly & 1st	Southern Magnolia	<i>Magnolia grandiflora</i>	205
1st & 2nd	Southern Magnolia	<i>Magnolia grandiflora</i>	205

-----  
 Certified April 6, 2000: Sandy Kennedy & Troy Calleros; Recorder: Norman Murdoch  
 -----

This Master Plan is founded on a detailed inventory of all existing parkway trees in Windsor Square undertaken in 1999 by the Windsor Square Association Tree Committee (Windsor Square Canopy) and their dedicated volunteers. Thanks to members of the Tree Committee including June Bilgore, Aimee Comeau, Bob Van Dyke, Scott Goldstein, Helen Hartung, Judy Horton, Damon Hein, Sandy Kennedy, Doug Meyer, Mary Pickhardt, and co-chairmen Linda Mcknight and Norman Murdoch. Special thanks are due Scott Goldstein and Sandy Kennedy who performed massive proportions of this neighborhood-wide inventory.

We also wish to particularly thank Superintendent Raymond Gandara of the Bureau of Street Services Street Tree Division whose support of the Windsor Square tree effort has proved invaluable. Bureau of Street Services Street Tree Division assigned Troy Calleros as liaison officer to the Windsor Square Association and we are especially grateful for his participation and guidance.

The *Master Plan of Parkway Trees 2000* was endorsed by the Board of Directors of the Windsor Square Association on April 24, 2000.

APPROVED

**Jane Ellison Usher**  
 President  
 Windsor Square Association

**George Gonzalez**  
 Chief Forester  
 Bureau of Street Services Street Tree Division
